Hi Krista,

Dave sent it to me this morning. I've taken a quick look, but haven't been able to look at it in too much detail. Will you be around tomorrow if I stopped by?

Aaron

**Importance:** High

Aaron, I assume Dave forwarded this to you, but if not here it is. I haven't had a chance to look at it as I took SL on Friday and this morning. would you like to join us for the call on Wednesday? we'll be in Kevin's office, looks like MPCA moved it to 1030

**Subject:** February 8 - MPCA/EPA Call  
**Importance:** High

Krista,

For our conference call scheduled for February 8<sup>th</sup>, we would like to continue the discussion on Antidegradation with Dave Pfeifer's input as it relates to permitting of the NorthMet project. On our January 4, 2017 call, Dave Pfeifer stated he wanted to check-in with other Regions and EPA Headquarters on how Antidegradation may have been handled at other facilities that had a predicted future (but currently nonexistent) discharge. We would like to hear from Dave on what he found out from his conversations with the Regions and/or Headquarters regarding this subject.

Separately, attached is a draft version of the MPCA's review of PolyMet's Antidegradation analysis for the proposed discharge from the Plant Site WWTP. Please note that this document focusses on the proposed discharge identified in

the NPDES/SDS permit application and does not directly address the potential future discharge during project closure that we will be talking about in the call.

If you have any topics you'd like to discuss in the call, we can certainly do that as well. We look forward to talking with you on the 8<sup>th</sup>.

Call In: Personal Matters / Ex. 6
